Front-End Engineer

Datatellers s.r.l.

10 / 2017 - present

Bolzano, Italy

Responsible for design and development of web interfaces for data visualization and reengineering or maintenance of existing web platforms. For the front-end I mainly worked with ES6, Polymer, GraphQL, PWAs and Twig; while for the backend with Nodejs, PHP, Postgres, MySQL.

COO & Software Developer

FlashBeing s.r.l.

01 / 2014 - 02 / 2016

Bolzano, Italy

Co-founder and responsible for all internal operations, team management and apps development. I designed the hybrid applications (Android, iOS, WP). Moreover, I designed and sold a B2B product, an online editor to manage structured web pages and apps, called WAY. Finally, I worked on a side project defining a new web feed format, ConnectedWeb.

Webdeveloper freelancer

2013 - 2014

Padova, Italy

I developed websites for a partially sighted writer, a sport association and a painter. However these sites are no longer live.
